Hi Kathryn,

I'm the person who would be accepting the bond. Yes, you can do a CD and I do have a form that is the CD's Agreement Letter, it has all the language the Division needs. I have attached the CD Agreement letter for your convenience.

As far as the rules go, I think the best way to do this instead of an attachment, is to have you go directly to the Division's website at www.ogm.utah.gov Once your on the homepage there is a blue box to the left, click on mining programs, when your there, there will be another blue box to the left, click on minerals. The first items appearing in the body of the page is rules. From there you just click on the one's your interested in, like surety.

We show the surface and mineral owner as the US Forest Service, so they would need to give concurrence for the bond amount.

If you have any questions please call 801-538-5291 or email. Thanks.

Penny

Dear Penny,

Thank you. - But any document you sent did not attach to the page. Would you please resend it. - I was told by one of your staff that they would accept a CD - but that it had to be titled in a certain way. Is there a certain account orwordning or a cashier at the BLM that I should deal with?

I put in search terms: bond, mineral claims bond, etc. on the website - I am afraid that without some direction to the appropriate place on the website - I have no idea of where to look for specific bond instructions - perhaps you could provide some suggestions.

My first preference would be to speak with the person who would be receiving or reviewing or recording my bond - Do you know who that would be?

Thanks.

-Kathryn L.

Hi Catherine,

Per our conversation here are the bonding rules and acts. If you would like to see more you can locate them on the Division's website at www.ogm.utah.gov . Thanks.

Penny
